

## **About PCA Strings**

**PCA Strings** encourages highly motivated students to develop their technical skills through a challenging curriculum that includes individual private lessons with a master teacher of their instrument. In addition to playing in the school Concert and Chamber Orchestras, students may also play in the Northeast Current, our electric string ensemble. In addition, all PCA music students have the extraordinary benefit of being enrolled in the prestigious and world-renowned International Baccalaureate (IB) Programme through their IB Music courses.
